

MICHAEL MESSAGES

PART XII.

to be published on Thursday, October 28

25.01.2021

*Human beings -
surrender selflessly
and full of trust
to Mother Earth.
Your mother,
mother of all being.
And face
just as selflessly
and trustingly
the responsibility
of your tasks
in the present time.
You will recognize them
in the moments of your devotion.
(Michael)*

- Imagine walking a path that leads to a large lake of crystal clear water.
- When arriving at the edge of the lake you are surprised that the path continues into the depth of the lake.
- You are brave and continue walking the path till you arrive at the bottom of the lake.
- Again you are surprised by how easy it is to breathe in the water, as if the crystalline water of the lake represents an aspect of the new Earth atmosphere.
- Look around and perceive the quality of the fluid-atmosphere and the quality of the world that is imbued with the soft quality of water.
