

April 2022 Telepathic LifeNet Workshop – We Create Peace

Tuesday April 12th 2022 starting at 20.00 (8p.m.) in the evening and
Saturday, April 16th at 9.00 in the morning

The workshop program can be found in different languages on these web pages:
www.lifenet.si/meditations or <https://www.lebensnetz-geomantie.de>

- We work in alignment with the Sun, so start at the given hour according to your local time.
- If needed, review the *Guidelines for Telepathic Workshops* published on these two websites.
- Study the workshop plan beforehand, have it printed with you or available on your computer or phone, so that you can follow the sequences.

Tuning of the group

1. Be aware that as a group we are scattered around the world. Move your subtle antennas and feel the presence of the group members.
2. We form a circle and invite ancestors and descendants of the human race to join the circle. Be aware of how you feel as they stand with us in the same circle.
3. Now we invite the elemental and archetypal beings of the Earthly kingdoms to join us. We also invite the beings of the angelic network. Be aware of how you feel as they stand with us in the circle.
4. **Now all together we tone (create sounds according to your intuition) –** sounding to tune to each other and to a common space and time level.

Sequence 1: Starting with the peace within

1. Sit down in peace and make in your imagination five steps backward.
2. There an olive twig is being handed to you. Try to feel whose gift it is.
3. Then come back and plant the twig inside your body. Observe how it grows to become a tree within your inner space. Feel its presence and look at the beauty of the peace tree growing within you.
4. Then make in your imagination five steps forward and plant the tree of peace and beauty in the middle of a destroyed landscape or city in Ukraine. Observe how it grows and what kind of blessing it develops.
5. Then choose another place in the world destroyed by war and complete the same process of planting a tree of peace there.

Sequence 2: Inviting redeemed soldier souls for help

Marko had following experience while working in a place in Ljubljana where fascist soldiers used to shoot imprisoned freedom fighters (partisans) during the World War 2: Leading a workshop there in 1995 he saw victims and their executioners standing over that place in white robes in a circle holding hands.

1. Imagine a large circle of souls in white robes standing over Ukraine (or choose some place of war that calls you). While embodied on Earth they were in different way entangled into warfare. The white robes denote that they are redeemed now.

2. One after another they approach the place of warfare touching with their toes the ground but not standing on Earth.
3. Feel what their presence does on the battle fields.
4. Ask each soldier in the name of his ancestors (no matter to which side he belongs) whether what he is doing is in tune with the will of his own heart and mind.
5. The souls in white robes do not leave until the peace downs.

Sequence 3: The fairy beings of the White Dove are imprisoned

How comes that such a merciless war came up in the middle of Europe after seven decades of relative peace? Those high fairy beings (devas), guardians of the white Dove of Peace are imprisoned. A wall high and infinitely long prevents them to bring peace there where it is needed. The Ukraine war and any possible future war demands from us to act. To succeed in front of potent guardians of the wall we will use a fairy tale language.

1. Watch the giant figure of the Mother of Life floating over the Earth so big that she plays with the clouds and thunderstorms.
2. The Mother has tiny holes at the centre of her palms. Anything being sucked through her palms disappears into the infinity.
3. Ask the Mother of Life to suck-in the mentioned wall separating humanity from the Devas of Peace.
4. Now you can see that the wall separating us from the Devas of Peace has been build upon bones of people who died in the innumerable wars. Spread rivers of violet energy to transform the bones into flowering meadows.
5. Imagine that flowers from the meadows transform into white doves carrying peace to the places on Earth where it is needed.
6. Now be ready to meet the fairy folk of the White Dove. Enlarge the space of your heart so that they can enter. Feel their presence. Meet them heart to heart.

Sequence 4: To restore the sanctuary of the "Third eye"

The Third eye is traditionally marked at the forehead. But seen in a more holistic way it represents an energy channel connecting the back of the head, its central focus and the point at the forehead. The Third eye stands for the inner vision, truthfulness and clarity. The human Third eye system is a victim of recent wars that do not know any ethical and moral standards.

1. To approach the sanctuary of the Third eye we need to go around the head. The door exists at the back of the head.
2. Standing at the back of the head, imagine that you stand in front of a great temple in the form of a gilded cupola (similar to your own skull).
3. The door opens and you step in. Be aware that this is the door that connects human head to the spiritual world of ancestors and descendants.
4. Then move forward through the temple along the corridor leading between the two halves of the brain. At first you encounter innumerable memories of past cultures and star systems that humanity has moved through during its evolution. Dive into the multidimensional treasury of the past.

5. Now you have arrived to the central part of the sanctuary marked by the gland hypophysis. Here the past has no place any more. Here you can feel the quality of the eternal now.
6. As next we move towards the forehead. Arriving there (you are still inside the temple of the head) open the window of the Third eye. Look into the rhythms of life evolving in front of your body.
7. You are surprised that by opening the window of the Third eye, also the door of your heart opens. It is the love of your heart that can restore the temple of the human head.

Conclusion

We take some time to meet each other and chat.

Then we create a circle that bridges continents and oceans and express gratitude for the experiences we have gained.

Now start to sound! We sound vowels as we did in the beginning. We also invite other beings that walked this workshop with us to join in.
